<p>1 2 3 4 _____</p> 	<p>1 2 3 4 _____</p> 

This is a flower.

Find **seven** flowers and color them red.

All of this organic material can simply be piled into a  in your backyard, or placed in a specially made compost box. Add a handful of earthworms and before you know it, you will have some of the richest, most fertile soil around.

Draw a line from this worm to the worm that looks exactly the same.
